U2 songbook what I hoped for

By andygetch

This is what I have been looking for in a U2 songbook for many years. It is in "fake" book format, i.e. guitar chord boxes, melody line and lyrics. "U2 the Complete Songs" does indeed contain all of the songs the band had written and recorded from before "Boy" through the "Pop" album. In addition to every track from Island Records album releases (except "Passengers"), it includes the single B-side songs like "Celebration", "Touch", "Trash, the Trampoline and the Party Girl" and "Boomerang", etc. A separate section with just lyrics for most of the contained songs.
