Good for data

By Aron Mueller

It is an excellent work in condensing all the ideas pertaining to the topic of psychology. On the other hand, the in-depth analysis is diminished in comparison to its older editions.

Fulfilled expectations

By Maxim Getmantsev

I needed the book for studies at university. The library has this book but I don't have time to sit there and read - prefer to do it at home. As for digital distribution of this book - I'm just not into digital. Will surely buy such kind of books in the future.

pretty good book

By nicoleP

Very easy read. Sometimes a bit wordy but overall it highlights all the essential points needed. It's a good

intro to the world of psychology.
