Cute book and innovative concept!

By M&M

Such a cute book! Very innovative concept. I bought two copies , one for my granddaughter and one for a friend,s daughter. The stories are so cute and the way the author used the story line to describe some of the cooking techniques is wonderful. For example: "the pears chased her around the room" when the instructions are to stir the pot, way too fun. Easy to follow and very organized recipes that children will love making and eating. Specific spots in recipes where an adult must help are well noted for both the child's safety and parent's peace of mind. I highly recommend this book to all parents of little ones.
