A remarkable, unforgettable story that will have you wanting more!

By E.A. Walsh

Oh Wow!

This book was worth the wait! I tried to read it slowly, I even forced myself not to start reading it right away; but damn it I just couldn't. This book, this series, is just too good.

Right out of the gate we're trusted into madness as our fearless clumsily hero, Aurora, scrambles about trying to fight off killer demon's, that she can only see, while trying to salvage the date her and Aden are on. There is fast solid action, gun fire, explosions and just plain old crazy. The kicker, this all happens in the first few chapters. Talk about an entrance. It was glorious!

We're also introduced to some new characters, well one character in perceptual, dreamy Christiano. In truth I wasn't too keen on him at first, but damn it was hard not to get distracted by his hotness and his slurry ways. I

have a new crush, Team Christiano, don't worry Jayden I have room in my heart to a multitude of fiction male characters.

But, my real enjoyment is the interactions between the Hex boys. Growing up with brothers, crazy cousins, a metal family, and now in the Military working mostly with men, it's a warm fuzzy to read such real interactions and witty banter. It brings back memories and gets me laughing like a crazy person (my dad has given me few WTF looks while reading this wonder). Not only the banter, but the writing flows in this off-rhythm smoothness that isn't like anything I have ever read before. I don't believe I have witness a story, either written or in media (movies. TYV) where there are no plot holes. This is dedication to the craft and a love of writing that shows through, in this work of crazy art.

Then there is Aurora, oh Aurora, how do you managed to tie your shoes and come out unscaved? You're like the most luckily and unluckiest person that ever walked the face of the earth, and will, hell. A cockroach got nothing on you my dear. Besides her weird ability test the bodies limited on thriving to survive, Aurora's mind is on another plain. I love it! You know what else I love? She always give her unknown assailants nicknames. Razor Rick, Armani, ha! Spectacular!

Besides her being bluntly awesome, she is, to me, real. She isn't perfect, she gets afraid and she doesn't always win. There is scene where her PTSD is triggered, how she reacted, the flashbacks, and fear that surged all at once had me catching my own breath and wishing I could help. These are the moments that makes the story more then just a story. It brings the reader there, with our hero, connecting our hearts and feeling their pain. It is this ability that makes a story remarkable, unforgettable, rather then another okay read stocked in the back and soon forgotten from our short attention span minds.

Now I would like to touch on the principal, Angie Clarke. She wasn't a big character and didn't have a lot of screen time, but she was a character I named because I was lucky enough to win a giveaway that was host last year, through the blog tour of Drop Dead Demons. I'm please (giggly really) with this character and happy to see my friend's name forever immortalized in the written word. Sadly Angie passed away six years ago of heart failure. She was 19, sick most of her life, but lived like most of us don't. I never knew a girl more alive, bright and kind. She would've loved the character A&E Kirk conjured up. Thank you, she's alive again, living in your wonderful, crazy world, where anything can and will mostly likely happen.

I highly recommend this book, this series. There isn't anything out there like it, and believe me I know, I make it my mission to search for these hidden original gems that get lost among the cookie cutter clutter that is YA. You will get hooked on this series, and you will never find another book like it.

Happy Reading

-E.A. Walsh

Loved the Book...

By princesspinto

spoiler free

I finally finished reading the book. I have to admit I loved it. This book is nonstop action from the very beginning. The book starts off with Aurora waiting for Ayden at a restaurant cuz she's on a date and well, what's a date without some demons, eh? And so it begins... :)

Lots of ups and downs. There are some new characters added namely, Cristiano and Horus. I loved them both. Horus does not have much screen time in the book but whatever little there is he is just hilarious. His character is done well and I hope we get to see a lot of him in the next book. He is a straightforward, emotionally and socially awkward person but his heart is in the right place. Cristiano, hmmm...one word - Ahhmazing. I enjoyed reading about him a LOT. Not to mention, I really liked his and Aurora's chemistry together. It is on a different level than Aurora and Ayden. We're still not sure about Cristiano's reason for helping Aurora. But, he is always there to help her and support her. On top of it all he's a Sicarius - intense and deadly too. I definitely want to know MOAR about Cristiano and his deep desire to keep Aurora safe ;)

Traitor, we finally find out WHO the traitor(s) is and how they orchestrated the whole thing. It was sort of a surprise to be honest when I found out who all was involved.

The best part - Aurora's stupid-O-meter seemed to have toned down a LOT from book 2. She either did not have a lot of time to make stupid decisions (like she did in book 2) or she finally grew up/realized that there are smarter ways of doing things. You can decide ;)

Just to warn that the Hex boys are MIA in part of the book. There's a reason for that. No worries, they do return with a bang! I think it was a nice brief break in a way cuz while they are amazing sometimes all the bickering between the boys takes away from the gravity of the entire scene.

Looking forward to Book 4 now.

WARNING: not suitable for boring people (inside joke)

By Erani Kole

I've been waiting so long for this, I had a hard time calming down when I actually got it. And I need more so much right now DX

DID was a fun read and I LOVED seeing the Hex Boys and Aurora again. But despite the wait, I didn't get as much as I'd hoped. Because instead of six Hexy guys that I've come to love so much, I got introduced to another character: Cristiano Cacciatori. I must admit I didn't like him at all because he was taking me and Aurora away from my guys, but immediately after some... circumstances ... things changed in ways I don't feel comfortable admitting as a fangirl. (Love you Matthias)

The story was great, but felt more like a transition to something amazing (meaning it's in the next installment lol). Doesn't mean this was a filler, as we find out a whole other layer as to what happened to Aurora before she came back to Gossamer Falls. There was a lot of action, 'romance' and romance, and with Aurora, nothing is boring. However, compared to the other two books, there wasn't an exact goal in the plot so much as Aurora finding out small things that lead to bigger plot twists without them actually showing up. If anything, the plot was more in hiding until... BAM.

I loved how the boys did show a little more of their vulnerable sides. It made me sad in some parts. Other characters could use a good strangling. And I couldn't. Stop. Laughing.

Aurora's a girl who couldn't sit down even if she tried, and I love it. Her lifestyle is as disastrous as her grades, and although I wanted to pin her down somewhere, I'm glad she never stood still. Nothing is better than a girl who takes charge (just ask Blake).

I definitely can't wait for the next one. Until then, I'll be rereading the books, fantasizing, attempting to

answer all the questions I got teased with. -_- And where's Gloria, man?? Yup, definite recommend. Six hot guys with the cutest, (sometimes) most immature spiels, secret organizations that just want to kill you, a hundred plus year supply of Mandatum dirty laundry, and a hunky Italian psychopath that just makes things a little more... enticing.
