5 big "I desire Corbin even more now!" stars!!!

By Cassandra

Why oh why have I even thought Cleo Peitsche would make it a little easier for Corbin and Audrey? There's still one book left in this series, so nothing goes easy. The opposite happens.

And yet we still have no idea what Henry will be doing? Will he really lay low and let it be? Never trusted him and I don't think we have heard the rest of him.

Corbin still has to deal with the revelation that his first wife, Audrey, might not be dead. If that wouldn't be enough, more secrets and speculations occur and keep him busy and away.

But even in these moments, Audrey is his first priority and he knows exactly what she needs and how to help.

For Audrey, all the problems and new revelations keep her on the edge and anxious. So much so, that Corbin's interference and his help have her in another panic attack. Her investigations are still running and working again with her brother make her nostalgic.

I so can't wait to read the final book and see if Corbin and Audrey finally get their happily ever after. And what they have to deal with to get their.

Desired By A Dangerous Man has its funny moments, its teasing and flirting, the hotness and please-more moments, but is also full of suspense and secrets. Cleo Peitsche really has grown as an author.

Felt like a filler book

By yadi g

Let me start off by saying I love the series. My issue is with this book , to me there is almost no development in the story , it felt overall like a filler book to me, not any action to speak of for the protagonist being a bounty hunter/PI. Spoiler alert.....

There is nothing new with the situation with his wife only further speculation as to whether now she is a double agent and some mysterious meeting he had in DC that may or may not have to do with her, we don't find out.

The series overall could have done without this book or just could have incorporated the two or three new developments in the next book and just make it a little longer.

I still have high hopes for the next book, we will see
