Awesome Book - Too bad it's out of print

By Mr. Will Hellme

WARNING* This book and Natural ESP: THE ESP Core and it's Raw Characteristics are the same books - Save yourself the \$\$

The only negative thing I can say about this book is the fact that Natural ESP by Ingo Swann is the same exact book put out by Bantam Books. The bantam version is older than this eddition. Had I known, I wouldn't have shelled out the \$\$\$ since books by Ingo Swann are so expensive.. However, the book I purchased was \$60 and now I see I can't get it for less than \$118...

After reading this book, I understand why books by Mr. Swann are so expensive... I really believe it is because TPTB (The Powers That Be) don't want you reading this book because it quite simply gives you the control to take your power back..

Ingo Swann should be required reading.
