PANENTHEISM--THE OTHER GOD OF THE PHILOSOPHERS: FROM PLATO TO THE PRESENT BY JOHN W. COOPER PDF

Panentheism has gained popularity among contemporary thinkers. This belief system explains that "all is in God"; as a soul is related to a body, so God is related to the world. In *Panentheism--The Other God of the Philosophers*, philosopher and theologian John Cooper traces the growth and evolution of this intricate theology from Plotinus to Alfred North Whitehead to the present.

This landmark book--the first complete history of panentheism written in English--explores the subject through the lens of various thinkers, such as Plato, Jürgen Moltmann, Paul Tillich, Wolfhart Pannenberg, and Charles Hartshorne, and discusses how panentheism has influenced liberation, feminist, and ecological theologies. Cooper not only sketches the evolution of panentheism but also critiques it; ultimately, he offers a defense of classical theism. This book is for readers who care deeply about theology and think seriously about their faith.

4 of 4 people found the following review helpful.

An essential book for studying the history of theology.

By Ben Ryder

This is an excellent work for theologians, students, and just theology buffs in general to have on their shelf. Cooper presents us with a well sourced chronology of Panentheism that I feel will satisfy both sides of the God argument. No not that one, but the one about the "God of the philosophers" vs the "new" concept of God. Though I feel that Cooper misunderstands why the so called "classical" construct of God is called the God of the philosophers, this really doesn't take anything away from the whole of the book. If you are

looking for a book that tells you how Panentheism proper evolved through Philosophy, this is it.
