Read this before reading a heavy book
By Azul
I found this short overview of research design very helpful. It is not, by any means, in the line of the work of Creswell (2009) or Lodico et al. (2010).

This is a short, very precise and clear introduction to research. I wish I had read this before embarking in Creswell and Lodico et al. because this ebook is like a foundation for all the terms and concepts that I found in those books.

It made me understand research a lot better.

Simple
By Amazon Customer
Explanation of this book is simple and clear
Reader will understand one and other designs in comparison
Thank you for offering good and cheap book but useful

Not a dry read for a Statistics text.
By Lisa
I bought this as a required text book. I have not read it all, rather skimmed and got what I needed for my assignments. The skimming and reading I did do, it was ok, nothing to get excited about but not nearly as dry as some textbooks I have read, especially the statistical text books. With that in mind it was actually a lot better than some of my other statistic texts.
