Review

For more than 20 years, a philosophically minded group of scholars with postmodern vision has been challenging taken-for-granted ideas and practices in social work. What started as a marginal movement has become a significant innovative force. Social Work Dialogues brings the insights, reflections, admonitions, and encouragements of some of these creative protagonists together in a way that will stimulate students and established scholars alike. This book is a testimony to the power of transformative dialogue. --Edward R. Canda, professor and director, PhD Program, The University of Kansas School of Social Welfare

A striking array of work that enriches social work by navigating its borderlines with the humanities and social sciences, Social Work Dialogues lets us in on a continuing conversation that has its roots in the U.S. and increasingly connects with similar exchanges elsewhere in the world. --Ian Shaw, professor, University of York; coeditor, Qualitative Social Work

Such a stimulating book; it is an intellectual achievement. I will most certainly adopt the book as required reading. The book made me wish I had actually been present for such compelling dialogues! --Raymond Fox, professor, Fordham University Graduate School of Social Service

SOCIAL WORK DIALOGUES: TRANSFORMING THE CANON IN INQUIRY, PRACTICE, AND EDUCATION BY STANLEY L WITKIN, DENNIS SALEEBEY PDF

This comprehensive collection of essays emerged from the Transforming Social Work Practice, Education, and Inquiry (TSW) gatherings held annually since 2000 in Burlington, Vermont, by the Global Partnership for Transformative Social Work. The gatherings provide a venue for academics, students, and practitioners to reflect on and discuss implications of the postmodern moment for social work. These essays, written by prominent social work scholars and educators, represent ideas and insights inspired by participation in these gatherings. Beginning with a discussion of transformative social work and how it is approached at the Vermont gatherings, the authors tackle a variety of topics using social constructionist and other perspectives associated with postmodern thought. Unlike typical collections, there is no attempt to impose uniformity of writing. Rather, the essays exhibit a variety of writing styles and genres, sometimes erudite, sometimes personal, but always stimulating. For anyone interested in the future direction of social work, these essays will illuminate new pathways of thinking.
