Review

“Black Pacific aims to decolonize the subaltern not only from the imperial center but also other subalterns. In this way, Shilliam identifies the logical next step after anti-colonial politics: that is, decolonial science.”
?L.H.M. Ling, Associate Professor, Milano School of International Affairs, Management, and Urban Policy, The New School, USA

“The Black Pacific is a life changing work of love. Shilliam makes a brilliant contribution to scholarship while still appealing to a more general audience. Constructing an amazing archive of texts and story telling of Maori and Pasifika peoples and practices, he articulates a decolonial science as an approach of repairing colonial wounds. By affirming the knowledge and living traditions of Maori and Pasifika, Shilliam shows their embeddedness in particular locales and their simultaneous connection with each other and proffering of general principles of engagement without laying claim to abstracted universals. If you haven't read *The Black Pacific* yet, drop everything, and read it now!” ?Anna M. Agathangelou, Associate Professor of Political Science at York University, Canada

“This is a creative and important contribution to the study of decolonial world politics and a solid exploration of the spiritual hinterlands where Black Power meets Maori struggles. The poetic dimension of the narrative contributes to an energizing reading experience.” ?Teivo Teivainen, Professor of World Politics, University of Helsinki, Finland

“The Black Pacific will change the way we think of colonial science and resistance to its historical projects. This exquisite book is decolonial thought at its finest. An exceptional achievement.” ?Mustapha Kamal Pasha, Chair in International Politics, Aberystwyth University, UK

THE BLACK PACIFIC: ANTI-COLONIAL STRUGGLES AND OCEANIC CONNECTIONS (THEORY FOR A GLOBAL AGE SERIES) BY ROBBIE SHILLIAM PDF

Why have the struggles of the African Diaspora so resonated with South Pacific people? How have Maori, Pasifika and Pakeha activists incorporated the ideologies of the African diaspora into their struggle against colonial rule and racism, and their pursuit of social justice?

This book challenges predominant understandings of the historical linkages that make up the (post-)colonial world. The author goes beyond both the domination of the Atlantic viewpoint, and the correctives now being offered by South Pacific and Indian Ocean studies, to look at how the Atlantic ecumene is refracted in and has influenced the Pacific ecumene. The book is empirically rich, using extensive interviews, participation and archival work and focusing on the politics of Black Power and the Rastafari faith. It is also theoretically sophisticated, offering an innovative hermeneutical critique of post-colonial and subaltern studies.

The Black Pacific is essential reading for students and scholars of Politics, International Relations, History and Anthropology interested in anti-colonial struggles, anti-racism and the quests for equality, justice, freedom and self-determination.

This book is a great glimpse into the particular lands and cultures covered

By Fredrick D. Cloyd

Incredible book!! Very exciting, interesting read on a topic that most people don't know about. Since my own work and soon-to-be-published book is about the Black Pacific, this book is particularly salient and important. Social justice movements often suffer from lack of historical details and ignoring the links and influences and divergences that make-up the movements, usually only getting the "official" stories and histories. This book is a great glimpse into the particular lands and cultures covered.
