Great book!

By Brian

I'm a senior in High School and I think that every guy in High School should read this. There are lots of useful tips for guys like me who didn't know certain things going into High School, and I wish this book had been published when I was a freshman, as it would have helped me in many situations whether dealing with other guys, with my parents or with girls. I definitely recommend it.

Please consider offering a printed edition

By Working Mom

Rosalind! PLEASE consider offering this in a printed format as well as the kindle edition. It would be a lot easier and more accessible for the you men in my life if you had this option as well. If it is available and I'm missing how to get it, could you or someone please let me know.

I am finding this book to be very helpful- the problem is that I'm only able to read it in snatches of time here and there, and I'd like to be able to flip back and forth and highlight and refer to other pages and perspectives that I've found helpful. Kindle is NOT the best format to do this. THANKS!

Good content marred by attempted use of teen slang

By Wimama

I think the information is good, but she disregards her own advice in using "douchebags" and other slang in the text. I'm a mom, and I don't mind my son seeing the language, but I think it would turn him off to have an adult trying to use teen slang, which isn't even necessarily the slang he and his friends use. If he can look past that, I think the content is pretty good.
