Life is always developing and you require some brand-new publication [The Runaway Jury \(Penguin Readers, Level 6\) By John Grisham](#) to be reference constantly.

Amazon.com Review

Millions of dollars are at stake in a huge tobacco-company case in Biloxi, and the jury's packed with people who have dirty little secrets. A mysterious young man takes subtle control of the jury as the defense watches helplessly, but they soon realize that he in turn is controlled by an even more mysterious young woman. Lives careen off course as they bend everyone in the case to their will.

From Publishers Weekly

Grisham is either remarkably prescient or just plain lucky; because with public concerns about the tobacco companies heating up, and two major nonfiction books currently garnering a lot of attention, he has come up with a tobacco-suit novel that lights up the courtroom. In a Mississippi Gulf Coast town, the widow of a lifelong smoker who died prematurely of lung cancer is suing Big Tobacco. Enter Rankin Fitch, a dark genius of jury fixing, who has won many such trials for the tobacco companies and who foresees no special problems here. Enter also a mysterious juror, Nicholas Easter, whom Fitch's army of jury investigators and manipulators can't quite seem to track-and his equally mysterious girlfriend Marlee, who soon shows Fitch she knows even more about what's happening in the jury room than he does. The details of jury selection are fascinating and the armies of lawyerly hangers-on and overpaid consultants that surround such potentially profitable (to either side) cases are horribly convincing. The cat-and-mouse game played between Nicholas, Marlee and Fitch over the direction of the jury quickly becomes hair-raising as the stakes inch ever higher. As usual with Grisham, the writing is no more than workmanlike, the characterizations are alternatively thin and too broad, but all is redeemed by his patented combination of expertise and narrative drive. What makes The Runaway Jury his most rewarding novel to date is that it is fully enlisted in an issue of substance, in which arguments of genuine pith are hammered out and resolved in a manner that is both intellectually and emotionally satisfying. It's a thriller for people who think, and Jesse Helms won't like it one bit. First printing of 2.8 million; major ad/promo; Literary Guild main selection. (May) ~ Mystery

From Library Journal

Grisham is back, and not surprisingly he's addressing one of the hottest topics of our time: the jury system. The plot is under wraps, but the catalog copy observes ominously: "Every jury has a leader, and the verdict belongs to him."

John Grisham books just OK

By Andrea M Hebert

Just ok. I bought 'Runaway Jury', the book, b/c I saw the movie years ago and liked it. Frankly the movie producers/director did a great job on the movie from a book that's just OK & almost unreadable in my opinion; somehow they found a vision from the book that I just don't see. The writing is slow & belabored, for example, Nicholas Easter is always referred to as Nicholas, never Nick as he is in the movie, which would make the book read faster; Herman Grimes is always Herman Grimes 2-3x in one friggin' paragraph, never just Herman, & he's the only character in the book named Herman, plus I don't have Short-Term Memory-Loss so I'm pretty sure I can remember his name; ditto Mrs Herman Grimes is Always 'Mrs Herman Grimes', never Herman's wife, and apparently she doesn't have a first name. Whatever, I don't like it when authors talk-down to readers and think they can't remember the characters' names, and these annoyances make the plot Slower and the book harder to read in my opinion.

A great read. But not quite the same as the movie.

By Paul Verheyen

Loved the movie and then realised it was based on a Grisham book. I haven't read all of them, but i had to read this one. Obviously the main difference is that the movie pursued a gun litigation case as opposed to tobacco. (I read that a similar movie theme on tobacco was released around the same time, so the producers went for a different controversial topic)

A great story that had just the right amount of suspense to keep you guessing where it would go.

The "villains" in the story are set perfectly so you can boo -hiss at their underhanded tactics.

A couple of plot points didn't seem to come to a conclusion, when i thought their storyline might influence the outcome. Thankfully this didn't end up being a glaring oversight.

Very enjoyable and it kept me up for a few late nights as i didn't want to put it down.

Whomp Whomp Whomp

By Hannah Bustamante

I think this book is very well written and the story was interesting, just now my cup of tea. I can't say it wasn't a good book, I just was able to put it down very easily and for long stretches of time. I was not sucked into it right away and I was a little relieved to be done with it.
